#### Notes:

Results shown are for Romspen Mortgage Investment Fund (the "Fund"), an Ontario trust, and are best efforts estimates, subject to confirmation at quarter end. Romspen figures prior to January 16, 2006 reflect the aggregated pool of individually syndicated mortgages. The indicated rates of return are historical annual compounded returns (or cumulative returns), after deducting management fees and expenses payable by the Fund and include changes in unit value and assume the reinvestment of all distributions. They do not take into account any applicable sales, redemption, or distribution charges, or income taxes payable by any unitholder, that would have reduced returns. The calculation assumes a fixed historical monthly starting and ending date at the Unit value at such date, and that Unit values are capped at \$10.00. For that reason, they may not reflect an individual investor's actual return for purchases prior to 2018.
